Online Oral Examination (August 24th and 25th; Examinees currently residing abroad: between 19th and 21st August)	Oral examination will be conducted by PowerPoint presentation on the submitted research proposal (10 minutes) and Q & A. To applicants to Course in Practical Science for Environment, oral interview on the short essay (No PPT presentation) and Q & A will be conducted.			
Foreign Language (August 24th and 25th; Examinees currently residing abroad: between 19th and 21st August)	Foreign language shall be 'English'. Applicants submitting a TOEFL, TOEIC, or IELTS score are exempted from taking the English examination during the online oral examination. Applicants submitting the score can also take the English examination during the online oral examination. The higher of the two scores will be converted to the English examination result score using a conversion formula specified by the division. Applicants submitting the score are requested to choose if they will take the English examination during the online oral examination when they submit the PowerPoint file. English examination will be done by PowerPoint presentation (including the short essay for the applicants to the Course in Practical Science for Environment) in English (in part or all) and part (all for applicants to the Course in Global Environmental Management) of the Q & A in English during the online oral examination.			
Specialized Subject (August 24th and 25th; Examinees currently residing abroad: between 19th and 21st August)	Oral examination will be conducted to examine applicants' specialization by PowerPoint presentation, Q & A, and questions on basic technical terms.	Oral examination will be conducted to examine applicants' specialization by PowerPoint presentation and Q & A.	Oral examination will be conducted to examine applicants' specialization by interview on the content of the short essay and Q & A.	Oral examination will be conducted to examine applicants' specialization by PowerPoint presentation and Q & A.
