

Selection Methods and Additionally Required Documents for the Division in Environmental Materials Science

Applicants to Master's Course

I. Selection method

Only Self-recommendation Selection is available. Basic-Chemistry Selection is not open. All applicants are required to submit a self-recommendation document and take on-line oral examination (ca. 5 min presentation and 5 min discussion).

※Contact expected supervisor in advance.

※For the Application Form 2, the example is shown in the page 3.

II. Additionally required documents

- Self-recommendation document** [MS-word or PDF file] (must arrive no later than July 31): In addition to the required documents for the application by July 17, a self-recommendation document shall be submitted via e-mail to the Division Office in Environmental Materials Science by July 31 (Fri.), 2020. If the self-recommendation document has been already submitted with other documents by July 17, 2020, “re-submission to the Division Office in Environmental Materials Science” is not required. In the self-recommendation document (A4 size, approximately 600 words, may be word processed), an overview of research undertaken to date (or background) and reason for application must be included. If the research is before undertaking, background, plan, and/or prospected results may be summarized instead of the overview of research undertaken. In case of no graduation research required at the college, applicants may write on a research topic they wish to undertake in this graduate school.
- Presentation file for on-line oral examination** [PowerPoint or PDF file] (must arrive no later than August 18): All applicants should send a presentation document as a PowerPoint or PDF file by August 18 via e-mail to the Division Office in Environmental Materials Science.

III. Methods for the entrance examination

1. Foreign language

Evaluate proficiency in English based on the Academic Transcript. The optionally submitted TOEFL, TOEIC or IELTS score sheet might be considered.

2. Oral examination

The oral examination will involve Presentation and Q&A based on the submitted self-recommendation document: ca. 5 Minutes for the presentation, ca. 5 Minutes for Q&A.

In the oral examination, applicants will be also evaluated fundamental knowledge and motivation.

About “On-line oral examination”

- Applicants should prepare a personal computer or tablet, equipped with microphone, speaker and web-camera to connect the on-line meeting system, Zoom.
- Applicants should prepare the environment to transmit/receive the video and audio via Zoom and take the on-line examination in a private room where no one else is in the room.
- A test for connection will be set prior to the on-line oral examination.
- Applicants should prepare examination admission tickets and Passports to confirm their own identification on the web-camera.
- Details for the on-line examination will be announced by the return envelope with the examination admission tickets.

Applicants to Doctoral Course

I. Selection method

Oral examination becomes on-line.

II. Additionally required document

- **Presentation file for on-line oral examination** [PowerPoint or PDF file] (must arrive no later than August 18): All applicants should send a presentation document as a PowerPoint or PDF file by August 18 via e-mail to the Division Office in Environmental Materials Science.

III. Change in the methods for the entrance examination

1. Foreign language

Evaluate proficiency in English based in the oral examination. The optionally submitted TOEFL, TOEIC or IELTS score sheet might be considered.

2. Oral examination

The oral examination will involve Presentation and Q&A based on the submitted Abstract of Master's Thesis and the Presentation file: 15 Minutes for the presentation, 15 Minutes for Q&A.

About "On-line oral examination"

- Applicants should prepare a personal computer or tablet, equipped with microphone, speaker and web-camera to connect the on-line meeting system, Zoom.
- Applicants should prepare the environment to transmit/receive the video and audio via Zoom and take the on-line examination in a private room where no one else is in the room.
- A test for connection will be set prior to the on-line oral examination.
- Applicants should prepare examination admission tickets and Passports to confirm their own identification on the web-camera.
- Details for the on-line examination will be announced by the return envelope with the examination admission tickets.
