Goals of Education

The goals of education in the Graduate School of Environmental Science are, on the basis of natural science, to promote education and research for tracking environmental processes and solving global environmental issues, and to foster researchers and professionals who cope with these issues. To achieve these aims, the Division of Earth System Science, Division of Biosphere Science, and Division of Environmental Materials Science are established for the study of these fundamental natural science disciplines, and the Division of Environmental Science Development is established to integrate these specialized fields and provide a comprehensive approach to facing environmental issues. Through study at these divisions, we aim to foster the specialized skills required to play an active role in the international community.

Admission Policy

Graduate School of Environmental Science admits students with the basic specialized knowledge in science who are interested in the global environment, the wide range of environmental problems that exist, and how to solve such global issues. Enrolling students are expected to have scientific / logical consideration and judgement abilities required for these tasks, as well as sufficient representation and communication skills to work globally. It is also expected to collaborate on their initiative with various people.

In addition, the Graduate School of Environmental Science also actively accepts working adults who wish to deepen their knowledge in environmental science while continuing to contribute to society, and foreign students who have the burning desire to study at the cutting edge of environmental science. The Graduate School of Environmental Science selects new students through the comprehensive evaluation systems using various types of selection methods, such as written examination of specialized subject, written examination in foreign language (including external English examinations), oral examination, interview and application documents.

<Security trade control>

Hokkaido University conducts strict screenings on exporting goods and providing skills (including incoming international students) by establishing 'Hokkaido University Security Export Control Regulations (北海道大学安全保障輸出管理規程)' based on 'Foreign Exchange and Foreign Trade Act (外国為替及び外国貿易法)'.

In case you are subject to our regulations, you may be restricted from learning or researching your desired fields of education. For further details of regulations regarding Security Export Control, please refer to the Ministry of Economy,

Trade and Industry website below.

Ministry of Economy, Trade and Industry (METI) website: https://www.meti.go.jp/policy/anpo/

Extended Enrollment

1. Purpose

The extended enrollment system allows students to complete programs by covering the curriculum systematically over a certain period that exceeds the standard number of years required for completion of a course of study at the Graduate School of Environmental Science if they wish to do so due to work commitments or other circumstances. Applications for extended enrollment shall be screened individually.

2. Eligibility for Extended Enrollment

Individuals eligible to apply for extended enrollment shall be those who fall under any one of the following items:

- (1) Individuals who are working full-time such as those who are employed by the government, other public offices, businesses, etc. (excluding individuals who are temporarily exempt from work assignments while receiving remuneration) or those who are self-employed.
- (2) Individuals who hold a temporary or part-time jobs, etc. and whose work burden is recognized as having a significant impact on their study at the Graduate School of Environmental Science.
- (3) Individuals whose burden is parallel to that prescribed in the preceding item (2) (such as burdens arising from child rearing or nursing care for relatives, etc.) and are recognized as having a significant impact on their study at the Graduate School of Environmental Science.
- (4) Individuals with visual impairments, hearing impairments, or any other physical disabilities whose disabilities are recognized as having a significant impact on their study at the Graduate School of Environmental Science.

3. Period of Extended Enrollment

The period of extended enrollment is up to six years for the doctoral program and is available for a one-year period. The maximum period of enrollment for the doctoral program is six years regardless of extended enrollment or not. All students of the Graduate School of Environmental Science may take a leave of absence for up to three years.

4. Application Procedures for Extended Enrollment

(1) Application Procedures

Those who apply for extended enrollment must submit the documents below (2) with the application documents for examination to the Academic Affairs Section, the Graduate School of Environmental Science.

(2) Application Documents

- ① Application form for extended enrollment (Form 1-1), Statement of reasons (Form 2-1)
- ② Extended enrollment study plan (Form 3)
- 3 Documents certifying the necessity of extended enrollment
- (3) Notification of results

Results of extended enrollment screening will be announced by notification sent to applicants in mid-September for October admission and mid-March for April admission.

5. Abbreviation or Extension of the Period of Extended Enrollment

The Graduate School of Environmental Science may approve the abbreviation or extension of the period of extended enrollment in the program concerned only once if it is considered necessary. The period of extended enrollment may be abbreviated to a period of the standard number of years required for completion of the course of study plus one year.

6. Tuition Fee

The tuition fee in relation to extended enrollment shall be calculated by dividing the total tuition for the standard number of years required for completion of the course of study by the permitted period of extended enrollment. If the tuition amount is revised or a period of extended enrollment is shortened or extended, the tuition will be recalculated accordingly. However, no adjustment will be made for tuition already paid to the university.

[Please DO NOT pay the tuition fee in relation to extended enrollment until you are approved.]

7. More Information

Please contact the Academic Affairs Section for the application forms and further details.
