# Young Sustainability Symposium

3 - 5 February 2020, Hokkaido University, Japan

## **Aim:**

The 17 Sustainable Development Goals set by the United Nations to ensure global sustainable economic, social and environmental development in 2015. This symposium will gather young scientists/researchers to discuss the perspectives of SDGs and their current research related to SDGs. Young scientists/researchers are forefront for the implementation of SDGs based research in globally. This symposium will promote interactions between researchers, scientists from different backgrounds to do transdisciplinary research to contribute towards SDGs. The aim of the symposium is to give a voice to young researchers, foster collaboration and gain valuable knowledge from experienced researchers. Researchers from different institutions in Japan will participate under the umbrella of YSS to discuss their participation in the implementation of SDGs. This symposium will also be useful for expanding collaborative research among the participants and discussing about ways to tap different funding opportunities available to realize the SDGs in order to solve complex issues in the sustainable development arena.

## **Organizer:**

Hokkaido University and Global Land Programme (GLP) Japan Nodal Office
